

Grow more trees

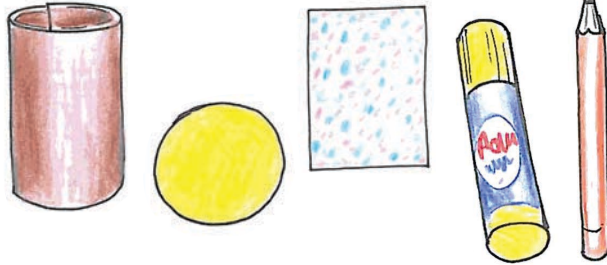

We all know that trees are good for the environment. Here is a poster with an important message. Can you colour it? Give it a nice border also.

Madhubani Painting

Pencil holder

Things required:

1. A cardboard roll
2. A cardboard circle big enough to become the base of the holder
3. Rectangles of thick waste paper (height of all rectangles should be equal)
4. Pencil, glue

Instructions:

1. Stick the cardboard roll securely on the circular base.
2. Roll a paper rectangle around a pencil tightly to make a paper roll. Remove the pencil and stick the edge of the paper so that the roll does not open out. Make many such rolls.
3. Now stick the paper rolls around the cardboard roll as shown in the picture.
4. Stick a band of contrasting paper on the top edge of the cardboard roll if there is any space left.
5. Let it all dry. The pencil holder is now ready.
