

Cowboy hat and crown

Things required:

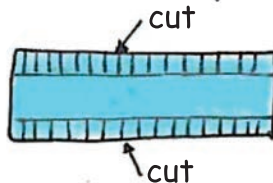

Pastel paper, glue and scissors

Instructions for the hat:

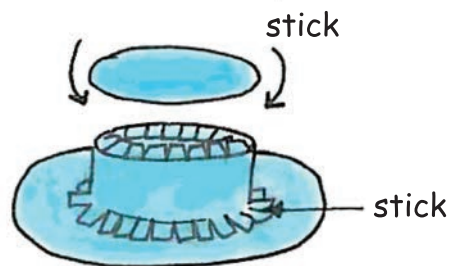

1. Cut a pastel paper circle that is bigger than your head. Draw a circle as wide as your head in the center of this circle. Cut out the inner circle. You will now have a paper ring and a cutout circle. Keep this cutout circle for later use.

2. Take a strip of paper and measure the circumference of your head.

3. Cut the edges of this strip as shown, and stick the strip to the ring.

4. Stick the cutout circle on top of the strip to complete your hat.

Instructions for the crown:

1. Cut a rectangle from pastel paper.
2. Cut a design along one long edge as shown in picture.

3. Roll the rectangle and stick the edges.

4. Decorate your crown.

Scratch a picture

Rub over the entire page opposite with wax crayons of different colours. Now paint over the crayon colouring with black poster paint. Let the paint dry well.

Take a dried up ball-point pen and scratch the black paint so that the crayon colouring shows up. Make a landscape or any other picture you like in this way.
